

Save a Life. Ride a Roller Coaster.

Limited Spaces Available...So Email or Call Us Soon!

Indiana Blood Center is inviting your high school youth group to make a difference, and will award the most successful group free admission to Kings Island! Odds for your group to win? One in six!

Your group, and 5 other youth groups in Indiana will be competing for the most successful blood drive relative to your youth group's size.

Summer months are a particular challenge to all blood centers and Indiana Blood Center is no exception. There are many activities, vacations, and events that compete with our donor's time. This increased demand on people's time over the summer results in a dip in donor frequency and can compromise the blood supply. We need your help to ensure a safe blood supply!

High school youth groups can make a difference in their immediate community not only by being blood donors, but by encouraging others to give the gift of life.

What would you have to do? Well, it's as easy as 1-2-3!

1. Find a great inside location for a blood drive, or place to park a bloodmobile
2. Work with your area Indiana Blood Center field representative to set a date for the blood drive. The blood drive will need to run any time between June 1st and July 17th.
3. Get commitments ahead of time from your group, friends, parents, church, and community to donate blood at your blood drive!! Your field representative will give you great tools to get this done.

So how do you get signed up?

All you have to do is to contact one of the people below to schedule your date, and report your youth group size. We will have several groups of 6 competing. Register in one of the 20-50 youth group size categories, the 51-100 youth group size category, the 101-150 youth group size category, or the 151 and over youth group size category. **One ticket per youth will be awarded to the winning group in each category*** (and a complementary ticket for one youth pastor per winning group). *The 151 and over category will max out at 200 tickets awarded. Limited spots are available; spaces are first come, first serve.

Contact either team member below to register:
